ELECTION DAY:  
APRIL 10th

# RAVNITZKY

## AZEEZ

## MAX

Hi, my name is Max Ravnitzky and I am an Environmental Studies and Economics double major. I am running for SGA President to lead it in advocacy for the student body. As the SGA Director of Academic Affairs, I got the Atheneum open 24/7, assisted students in navigating academic affairs, and launched the School Supplies Initiative. I believe my track record and experience in getting results for the student body will help SGA achieve more. If elected SGA President, I will **continue my work in advocacy** for student spaces, lead an update of the RSO handbook to further support student organizations, and continue my efforts to increase student involvement in college decision-making (i.e. in committees). I will support and grow the community of student leaders that **make change happen**.

## AZEEZAH

Hello, my name is Azeezah Azeez and I am a Sophomore studying Psychology with a minor in Legal Studies. I am running for the position of Vice President of the SGA as I believe there are **gaps between the student body and the administration that need to be addressed and rectified**. I have held many leadership positions, and in my time at this institution, a common thread across campus is the lack of school spirit and engagement between the student body. **I plan to work to remedy this**. One of my propositions is a **Student Leadership Conference**.

This will be an opportunity, organized by students, for student leaders to come and share ideas, concerns, and simply **connect with one another**.

I will strive to connect the student body and ensure that students feel heard, seen, and represented.

# GRAHAM

## KIYOI

## EVANGELINE

Hi! My name is **Evangeline Graham**, and I am an education major here at Goucher. I love **reading, the arts, and helping people**. I am running for SGA president because I would like to make **positive change within our community**. That might sounds cheesy...but it's true.

I've noticed that there is not a lot of **communication** between different groups on campus, and I want to work towards **bridging those gaps**. I'm always in the OSE office, and as such I have been **in the loop** about the inner workings of SGA (beyond General Assembly) - what's working, and what's not.

My VP, Kalia, and I want to hear your concerns - that's why we are here!

## KALIA

Hello! My name is **Kalia Kiyoi**, and I am a Biological Science major at Goucher. I love books, running and my pets! (3 dogs, 7 chickens, a gecko and a guinea pig)

I am running for VP because I want to **connect groups on campus**, as a student athlete I see a lot of divide between athletes and non-athletes and I want to fix that. Since we are such a small community already **there is no point in closing ourselves off more!** I want to **create events and create a community** that is what Goucher is-diverse in the best ways possible.
